

BIOGRAPHY

Kevin Miller, PMP,
Deputy Project Manager/Resources for the Laser Interferometer
Space Antenna,
NASA Goddard Space Flight Center

Mr. Miller is the Deputy Project Manager/Resources for the Laser Interferometer Space Antenna (LISA) and the Earth Observing-1 (EO-1) Projects at NASA's Goddard Space Flight Center (GSFC). In this capacity, he is responsible for the development and management of project management systems and personnel for these projects.

Prior to this position, Mr. Miller served NASA in numerous capacities including: Financial Manager on the Hubble Space Telescope (HST) Development Project, the Project Support Manager for the Polar Operational Environmental (POES) Program and the International Solar Terrestrial Physics Project, and Resources Analyst for the Geostationary Operational Environmental Satellite (GOES) Program and the Earth Observing Satellites (EOS) Program. As a Presidential Management Intern he served in a series of rotations as both a resources and budget analyst.

Mr. Miller has a B.A. degree in History and an M.A. degree in Public Affairs from the University of Minnesota. He has graduated from the GSFC's Flight Programs and Projects Directorate's Project Management Development Emprise (PMDE) Program, is a Senior Executive Fellow of the Harvard University's Kennedy School of Government, and is a certified Project Management Professional (PMP). Mr. Miller is a member of the Program Management Institute (PMI) and the Society of Cost Estimating and Analysis (SCEA).
